

# SPONSORS & EXHIBITORS

The ASCA International Conference on Applied Strength and Conditioning is proudly partnered by Edith Cowan University.

The School of Exercise, Biomedical and Health Sciences at ECU offers undergraduate and postgraduate degree programs in the area of Exercise and Sports Science with particular emphasis in the science and profession of strength and conditioning. Our three year Bachelor of Science (Exercise and Sports Science) is recognized by both the National Strength and Conditioning Association (NSCA) and Exercise and Sports Science Australia (ESSA) and the 4 year Bachelor of Science (Exercise Science and Rehabilitation) is accredited by ESSA for registration as an Exercise Physiologist. The Masters of Exercise Science (Strength and Conditioning) is a three semester course work degree offered entirely online with a two week residential in Perth.

Leading practitioners, researchers and teachers in the strength and conditioning field deliver highly applied course content supported by the latest e-Learning technologies. We have extensive laboratories and close links with amateur and professional sport to ensure these courses are cutting edge and relevant. Our postgraduate research program is one of the largest in Australia with 30 PhD students and 20 Masters by Research, with strength and conditioning being a major area of research for both students and academic staff. Our aim is to become the national leader in strength and conditioning and internationally recognized for our professional engagement, teaching and research.

## PRO-STRUCTURE VIP LOUNGE

### ASCA PRO-STRUCTURE VIP ROOM - Paradise Room 1

This area has been reserved as an exclusive VIP room for those registered in the ASCA Pro-Structure. This retreat will be able to be used for private meetings, video viewing and refreshment. Members are able to apply for Pro-Structure recognition at the ASCA Trade Booth.

PureSport.net.au

ADVANCED HYDRATION  
WITH PROTEIN

### PURESPORT – Booth 15

PureSport is a great tasting, internationally recognised **protein** based performance drink providing sustained energy and alertness, leading to improved performance during sport, exercise and at work. Unlike other rehydration drinks, PureSport's unique combination of protein and both simple and complex carbohydrates provides sustained energy through advanced rehydration, allowing improved muscle **endurance** and reduced soreness after sporting activities and hard labour. Given PureSport contains one third the sugar of other formulations it also helps avoid the sugar rush and crash cycle associated with some hydration drinks. [puresport.net.au](http://puresport.net.au)

### DAN BAKER STRENGTH – Booth 16

Dan Baker Strength provides coaches with up-to-date information, articles and also stock some great strength and power training aids such as Iron Woody resistance bands and the Manta Ray squat device.
